

Hossein Seyedi - Front-end Developer

Tell: [+989384935387](tel:+989384935387) | E-Mail: hseyedi909@gmail.com | [LinkedIn](#)

SUMMARY

I am a front-end developer with 1 year of experience. My main languages and technologies of expertise are Javascript, Typescript, React.js, Next.js, Redux toolkit, TailwindCSS, HTML, CSS, and Sass.

I am looking for a full-time position to showcase my skills.

EXPERIENCES

Alis Holding, Mashhad — Front-end developer

April 2024 - PRESENT

Alis is a leading beverage producer specializing in carbonated juices, energy drinks, and mineral waters. The company exports to multiple countries.

- I developed and enhanced key UI components for the Alis customer management software in an agile development team, including dropdowns, calendars, the main menu, and many more.
- Worked on a multi-panel system for customers, admins, operators, and visitors.
- Conducted research on Next.js packages and proposed solutions for Persian date handling and the dashboard themes, integrating approved tools into the project.
- Participated in daily and weekly planning and development meetings to ensure effective progress on software production.
- Collaborated with the team on code reviews and pair programming sessions for improved code quality.
- Utilized modern development tools like Git, GitLab, and Jira to streamline software development processes.

Eghamat24, Mashhad — Front-end boot camp

Jan 2023 - Feb 2023

Eghamat 24, based in Mashhad, is a leading online travel agency specializing in nationwide hotel bookings and travel services. It offers a seamless platform for travelers to plan and manage their accommodations efficiently.

- Completed an intensive boot camp focused on core programming concepts, problem-solving, and programming-oriented thinking.
- Developed custom components with vanilla JavaScript, including a text editor, a customized calendar, and a game using the Canvas API.
- Implemented a cascade menu component using recursive functions, enhancing understanding of advanced programming techniques.
- Secured employment at Alis Company as a result of successfully completing this boot camp.

Damoon, Mashhad — Front-end internship

May 2023 - Oct 2023

Damon Company consists of a group of students working under the supervision of Shahid Montazeri Technical and Engineering University, with a focus on designing and implementing dynamic web pages.

- Participated in JavaScript and web design courses in a university-based startup alongside a group of students.
- Contributed to a final project focused on developing a platform for authors to request and promote the publication of their books.
- Developed the platform using vanilla JavaScript, HTML5, and Sass gaining hands-on experience in web application development.
